CPD Overview

BRITA Vivreau Ltd is a Global leader in the development and manufacture of filtered drinking water systems.

Established in the 1980's, the company pioneered innovation of design, quality of product and exceptional service to gain a strong reputation within the marketplace. Offering a portfolio of products to suit all applications in your commercial setting and supplying a bespoke solution when something different is needed.

Water systems are more than just a vending machine and should be designed to suit your environment. BRITA Vivreau is the industry standard for all hospitality and catering environments from corporate headquarters and leading hotels to Michelin starred restaurants, and now services the needs of the world's leading companies including approximately 75% of the top 100 UK companies and many fortune 500 companies.

From its inception BRITA Vivreau's purified drinking water dispensers provide an environmentally positive alternative to pre-bottled mineral waters, a fact which has become a key driver in recent years for clients who have become increasingly concerned about their environmental impact. BRITA Vivreau continue to innovate and develop new solutions to help companies not only reduce their carbon footprint but also reduce unnecessary expenditure on pre-bottled mineral waters.

Available CPD Material (2)

Creating a healthy, happy workspace

This seminar looks at office design and why health and happiness are important in the modern workplace. It will help you to understand the following topics:

- The history of office design
