## CPD Overview

---

---

## Available CPD Material (4)

---

### To Slide or to Fold: That is the Question

This seminar looks at the evolution of the folding and sliding door. It will help you to understand the following topics

- Understand the different sliding and folding systems available and their advantages and disadvantages
- Understand which application is better suited to which type of door
- Understand the issues to consider when designing and specifying a folding or sliding door
- Understand relevant quality, testing and performance standards

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

### Bi-folding & Sliding Doors for Marine & Coastal Environments

This CPD discusses the testing of bi-folding and sliding doors with regards to weather and security. It also provides information on weather in the UK and ensuring bi-folding and sliding door systems are fit for purpose in exposed and coastal locations. This CPD presentation also covers preparation of materials and components. These should all be taken into consideration when projects are in the design and planning stages.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

### Wide Open Spaces

This seminar looks at the evolution of the folding and sliding door. It will help you to understand the following topics

- The different sliding and folding systems available and their advantages and disadvantages
- Which application is better suited to which type of door
- The issues to consider when designing and specifying a folding or sliding door
- Relevant quality, testing and performance standards

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**  
**Legal, regulatory and statutory compliance**

Knowledge level: General Awareness

---

### Balcony Wintergarden Systems

This CPD examines Balcony Glazing Systems, also commonly known as Balcony Wintergardens. Balcony glazing protects the balcony area, meaning that residents can enjoy their balcony space 365 days a year - rain rolls off, the wind is kept out, and on sunny days the glass elements can be opened across the entire width of the balcony. By the end of this CPD you should have a greater understanding of:

- How to include for Balcony Wintergardens in the design of your scheme
- The various Balcony Glazing System styles available
- System testing and general good practice in the industry
- The many benefits of including Balcony Wintergardens on a project

Material type:

Seminar
