CPD Overview

Over 111 years UZIN UTZ has grown and now represents all the disciplines in the art of floor installation. Together all our brands provide the foundation for professional flooring installation. Whether UZIN, WOLFF, PALLMANN, arturo, codex or Pajarito, each brand with its particular character is a building block in our flooring expertise and part of the UZIN UTZ family.

We started as a small, regional adhesive manufacturer in Vienna that has developed over the years into a leading global manufacturer of products and systems for flooring technology as well as a pioneer and leader in the industry. Thanks to innovative thinking, a sophisticated sustainability strategy and healthy growth, the family company continues to shape the future and set new standards for flooring installation.

We are united by the passion and ambition to provide our partners with the resources to achieve perfect results for every task. In the future, we will concentrate our diverse expertise and continue to play a leading role in flooring installation systems.

We provides the UK's flooring professionals with ecological, innovative and high quality adhesives, smoothing compounds, underlays and damp proof membranes as well as resin floors and wood flooring lacquers. From new installations to renovation of all types of floor coverings. With a comprehensive range we provide solution for any challenge. Our expertise includes:

- Flooring specifications
- Free CPD seminars
- Solutions to expediting projects with short time frames.
- Rapid remedial repairs.
- Ensuring the flooring is compatible with environmental building certification such as BREEAM.
- Free colour samples for our arturo resins.
- Free advice and support.

Available CPD Material (6)

Decorative Cementitious Flooring

Exploring the use of cementitious flooring as a decorative finish, from polished concrete, microcements and new self-smoothing microcements. It examines the preparation and installation process, and look at the problems which may arise as well as best practice.

- Provide information about new developments and innovations.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Exploring the Design Possibilities of Resin Flooring

This CPD will:

- Look at what resin flooring is and discover the benefits.
- Explore the interior design potential.
- Look at best practice and how to reduce risk.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

NLU-Modern Installation Systems for Tiles & Natural Stone

This seminar will teach specifiers how to:

- Examine what constitutes as modern installation systems for tiles & natural stone.
- Evaluate best practices & how to reduce risk.
- Investigate the latest innovations & developments.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Super Natural Flooring: An overview of installation, renovation and maintenance and design possibilities of Wood flooring

Material type: Seminar

Multiple formats

NLU- Super Natural Flooring - Understanding wood floors and their installation, renovation and maintenance

Wood floors are the most sustainable floor covering and each is beautifully, naturally individual. Understanding what gives them these qualities, how that impacts on the methods of installation, renovation and maintenance will ensure low life cost and a practical but beautiful asset. By the end of the CPD you should have a greater understanding of:

- How wood floors are truly sustainable and have a low life cost
- The natural science of trees and its positive and negative effects on wood flooring
- The effect of water on wood and how to manage the built environment to control this
- The fail safe installation, renovation and maintenance methods
- The knowledge and confidence to specify wood flooring as a viable, cost effective and practical floor covering

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**Knowledge level: General Awareness

**NLU- 'Modern Installation Systems for Floor Coverings: Step this Way'**

Examine what constitutes as modern installation systems for floor coverings

- Evaluate best practice and how to reduce risk
- Investigate the latest innovations and developments

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**Knowledge level: General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Finishes

Floor finishes: jointless > Cement-based flooring

Floor finishes: wood systems > Special wood floors

General products

Paints, varnishes, protective treatments etc. > Paints and primers

Paints, varnishes, protective treatments etc. > Special paints, coatings, films

Adhesives, sealants, gaskets > Adhesives

RIBA Core Curriculum areas

Design, construction and technology

Knowledge level: *General Awareness*
