CPD Overview

Repair Care are manufacturers of the DRY FLEX and DRY FIX system, a system of Epoxy Fillers designed to remain flexible when used to repair a variety of substrates. Our clean epoxy formula is unique and allows for the resin to flex with the surrounding substrate throughout the seasons, ensuring no cracking, splitting or shrinking occurs.

Available CPD Material (1)

Repair, Maintenance and Conservation of Timber Joinery

Comprehensive seminar exploring the benefits of using an epoxy resin rather than traditional repair methods for decayed timbers i.e., windows, doors etc

Material type: Seminar

RIBA Core Curriculum: Design, construction and technology
