CPD Overview

From design to delivery, Dolphin offers the complete washroom solution tailored to your exact specifications. Redefining standards of washroom quality, functionality, and sustainability, our innovative range of products exhibit world-class design, exceptional quality and performance, and a sustainably driven ethos that safeguards the environment. Our expansive range of commercial bathroom supplies and washroom solutions enable intuitive functionality, whilst saving water, energy, time, and space. Partnering with our team of architects, designers, and industry experts, we are unwavering in our focus to provide you with the finest commercial washrooms. Together with our core values of care, integrity, and enthusiasm, we are motivated and inspired to design washrooms that are beautiful, comfortable, and intuitively simple to use.

Available CPD Material (3)

Disabled Toilets? They Probably Are

This seminar is about the design and specification of accessible washrooms. It will help you to understand the following topics:

- Common issues with the design of accessible washrooms
- The difficulties that accessible washroom users face every day
- How to achieve complete compliance without compromising on stylish design
- The relevant regulations and best practice, including Building Regulations Part M and British Standards
- Infection risks and how to limit the spread of bacteria
- Demographics and why accessible facilities will be even more critical in the future
- Issues around the accessible washroom of the future

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**
Inclusive environments

Knowledge level: General Awareness

Washroom Sustainability and Design

This CPD will help with specifying washrooms that are:

- More hygienic
- Waste significantly less water and energy than traditional designs
- Are aesthetically pleasing
- Cost effective

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**
Sustainable architecture

Knowledge level: General Awareness

Washroom Sustainability and Design - not used

Why we need to consider water saving

- How high speed driers reduce cost in use
- Wastes to be avoided
- BREEAM achievements
- School washroom design - benefits to the school
- Safety in body change areas
- Document M design
- Best practice in dispenser height installations

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Structure

Doors: parts, accessories > Door furniture

Services

Refuse disposal > Bins

Hot and cold water > Valves, stopcocks

Air conditioning, ventilation > Air treatment systems
