CPD Overview

Available CPD Material (3)

Introduction to Raised Access Floors

This CPD aims to provide an introduction to the configuration, application and installation of a raised access floor system. It will discuss raised access floor systems as a cost effective way of creating a flexible working environment by utilising the floor void to manage the distribution of M&E services and HVAC systems. Additionally, the presentation will explore Data Centre Solutions. By the end of the CPD you should have a greater understanding of:

- The configuration, application and installation of a raised access floor system
- The features and benefits of installing a raised floor
- The benefits of adding architectural floor finishes
- The configuration, application and installation of Data Centre Solutions

Material type: Seminar
RIBA Core Curriculum: **Design, construction and technology**
Knowledge level: General Awareness
