CPD Overview

Available CPD Material (3)

Acoustic Flooring – The Impact of Material Specification on Performance

- Gain an understanding of acoustic related regulations and the role of flooring specifications in achieving compliance.
- Learn how to navigate the complexities of compliance and better understand the testing protocols which determine product performance.
 - Acquire valuable insight into common reasons for failures and how to best to avoid these.
 - Develop your knowledge on a wide range of system types and understand the strengths and weaknesses of these in a range of applications.

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology
Legal, regulatory and statutory compliance

Knowledge level:

General Awareness

Sound Absorption and the Rise of Reverberation

This seminar aims to:

- Explain and demonstrate absorption and reverberation
- Raise awareness of architects to BB93
- Enable architects to make informed choices regarding the types of products available and a brief overview of those products on the market and suitable applications and performance

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology
Legal, regulatory and statutory compliance

Knowledge level:

General Awareness

Anti-Vibration Solutions: The Impact of Specification on Performance

This CPD provides an overview of the best practices for anti-vibration and structural isolation solutions in the construction industry. It will help you to understand the following topics:

- Understand best practice for designers and developers to tackle anti-vibration and structural isolation
- Understand anti-vibration in construction, floor, wall and foundation isolation
- Understand vibration isolation system types
- Understand vibration isolation common material choices
- Understand how to specify robust treatments of anti-vibration solutions

Material type:

Seminar

Classifications

Subject/Product Areas (CI/SfB)

Structure

Floors, including beams > Floor insulation

Finishes

Finishes > Floor and roof screeds, aggregates

Fittings

Special fittings > Controlled environment fittings

RIBA Core Curriculum areas

Design, construction and technology

Knowledge level: *General Awareness*

Legal, regulatory and statutory compliance

Knowledge level: *General Awareness*
