CPD Overview

Draka Comteq is part of the Prysmian Group. Prysmian Group is the global leader in the energy and telecom cables and systems industry. Our products are helping to meet the world's greatest challenges, by enabling the transition to low carbon energy and supporting the electrification and digitalisation of the world.

We act as an enabler for accelerating the energy transition, by ensuring our business solutions and activities provide clean energy where it is needed, all over the world.

With 140 years' experience, sales of over €12 billion, almost 29,000 employees in over 50 countries and 108 plants, the Group is strongly positioned in high-tech markets and offers the widest possible range of products, services, technologies and expertise to its global client base.

Prysmian specialises in underground and submarine cables and systems for power transmission and distribution, special cables for applications in many different industries, and medium and low voltage cables for the construction and infrastructure sectors, while developing solutions for smart, digital buildings, utilising Power over Ethernet technology and IoT devices.

The Group is the world's largest provider of cutting-edge cables and accessories for voice, video and data transmission, offering a comprehensive range of optical fibres, optical and copper cables and connectivity systems across the telecommunication industry.

We operate a transparent business model which integrates ESG responsibility across all our activities. This includes our commitment to environmental responsibility in our production processes, the protection of the global environment, and the responsible management of relationships in the local communities in which we work.

We are championing sustainable innovation for a better future. We meet the needs of our customers and communities by understanding their business drivers as quickly as they do. We are constantly close to our customers, through our global team of over 900 R&D specialists across 26 global centers which are always looking to the future, predicting and identifying emerging trends in each of our industries and sectors.

Prysmian is a public company, listed on the Italian Stock Exchange in the FTSE MIB index
