CPD Overview

Available CPD Material (1)

Benefits of Solid Surfaces in Architectural Applications

This seminar provides an outline the practical uses of acrylic solid surfacing material in commercial applications. It also covers the features of solid surface, the colour variations, and the bespoke colours that can be developed with solid surface. This CPD will help you to understand the following topics:

- The features of acrylic solid surfacing
- The practical uses of acrylic solid surfacing material in commercial applications
- Colour variations of acrylic solid surface and achievable effects
- The certification attained by conventional acrylic solid surfacing
- The production process of acrylic solid surfacing
- The fabrication and installation of solid surface materials

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness

Classifications

Subject/Product Areas (CI/SfB)

General products

Rigid sheets, boards > Mineral fibre, glass fibre slabs [solid surface]

RIBA Core Curriculum areas

Design, construction and technology
