CPD Overview

With over 40 years of experience, energystore ltd are the leading manufacturer of high performance eps (expanded polystyrene) bead insulation products throughout the UK and Irish construction industry.

With state of the art manufacturing facilities spread over 6 factories, we are able to supply a very demanding market. We are committed to helping our customers to meet the increasing demand for energy efficiency and sustainability in buildings. Energystore`s mission is to challenge conventional thinking and create innovative products that shape the way we live and build in the future. Energystore has great core values from the people it employs to its customers throughout the country.

Available CPD Material (1)

Introducing Poured Insulation.

Covering the manufacture, installation and benefits of poured insulation as a replacement for more traditional methods.

Its advantages in different situations, reduction in carbon, non combustibility and overall benefits when used in construction.

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Structure

External walls > Cavity wall insulation
