papergraphics

CPD Overview

With over 40 years of experience, Papergraphics Limited is one of the UK's leading suppliers of media and equipment to the wide-format print industry. Based in Crawley, West Sussex, with offices in Scotland, Belgium, Spain and the Netherlands.

Papergraphics employs over 100 people, with a wide range of experience and knowledge. This enables the company to meet the needs of a network of specifiers, print service providers and installers throughout the UK, Europe and Scandinavia. While offering, unique and innovative product lines, underpinned with unrivaled technical knowledge, support and customer service.

In 2004, Papergraphics launched the Digimura range of digitally printable wallcoverings, suitable for the commercial interiors market. Since then, Digimura has become the "preferred" digitally printable wallcovering material, for printers, installers, specifiers and end clients alike. Furthermore, the addition of Décortex, (a range of printable roller blind fabrics), reinforces the desire of Papergraphics, to help its customers and their clients to create outstanding interiors.

In 2019, Papergraphics added two new products to their range: -

Digimura One a one piece wallcovering, which, at 3.2m in width, can be applied horizontally and therefore avoiding the need for joints. Also Digimura NW a range of non-woven polyester wallcoverings. Produced in four finishes, giving a PVC free option for bespoke interior finishes.

Coming bang up to date, July 2022 saw the launch of "The Design Collection". With its combination of colours, textures, metallic, pearl and suede finishes, this range is unique within the bespoke wallcovering market. They all are fully Fire Rated and comply with BS EN15102:2019 and as such are suitable for all contract and commercial interiors environments.

Fire and Regulatory Requirements For Bespoke Wallcoverings, Murals and Graphics

This CPD shows the types of products and what the differences mean to a specifier. It highlights key factors to look for within a Fire Certificate, to ensure your chosen material has been correctly tested and the Fire Certificate is valid for its intended use. It will also familiarise you with the relevant sections of the Construction Products Regulations and the UK Building Regulations to ensure your materials meet BS EN15102 product performance requirements and explain the relevance of a declaration of performance and an approved CE or UKCA Mark.

By the end of this CPD you should: -

- Be able to identify the key factors and what to look for in terms of Fire Classification BS EN13501
- Be aware of the regulatory requirements under BS EN15012 Construction Products Regulations
- Understand the correlation between the harmonised European Standards and the UK Building Regulation
- Recognise the importance of a Declaration of Performance and CE/UKCA Marking
- Have an awareness of the different product types and their compliance.
- Be able to confidently specify Digitally Printed Materials, suitable for Commercial and Residential Interiors

This CPD can be delivered to in-person at your practice or remotely
