CPD Overview

Available CPD Material (4)

Luxury Residential Shading

A broad overview of automated shading systems in the context of a luxury residential environment. We'll cover why shading is important, how automated shades can be powered and controlled, the importance of defining the purpose of your shade before choosing fabrics and how to choose fabrics based on performance.

Luxury Residential Audio – Bring the Concert Home

There is nothing like the energy and atmosphere of live music. Join us in Highgate, North London at the demonstration facilities of sound reinforcement specialists, L-Acoustics, where we'll explore bringing the power and emotion of live music into the luxury home, in this unique experiential CPD seminar.

By the end of this seminar, you will have a greater understanding of

- How live music can affect our mood, emotions and wellbeing
- The shift from live events to live streaming
- The difference between consumer grade and concert grade audio systems
- Room Acoustics, including in-room acoustics and sound containment/isolation
- User Interface and how we interact with a concert grade audio system.

Luxury Residential Lighting

This CPD will provide a comprehensive overview of how to design a lighting system for a luxury residence. It will cover all aspects of residential lighting from design, through to luminaires and control systems. By the end of the seminar you should have a greater understanding of:

- The basics of good lighting design
- The drawbacks of LED and how to overcome them
- Why documentation is important and what's required
- Zones, scenes and dimming technologies
- How control systems make lighting easier to use

This CPD can be delivered to you live and remotely.
