CPD Overview

Established in 1976, Meganite specialized in manufacturing acrylic solid surfaces with over 40 years' experience. Headquarter in the United States, Meganite is a global surface brand with distribution in over 35 countries. Our professional team supports the specification journey from in-design phase to the construction phase by providing expert advice and product/technical knowledge throughout.

Infection Prevention Begins With Design

This CPD gives an overview of the selection of interior surfaces to support infection prevention.

By the end of the CPD you should have a greater understanding of:

- The differences between antibiotic resistance and antimicrobial resistance.
- How surfaces support the acquisition and transmission of deadly pathogens.
- Design strategies to mitigate healthcare acquired infection.
- The benefits of antimicrobial solid surface material and the key areas the material can support infection prevention.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**
Health, safety and wellbeing

Knowledge level: General Awareness
