CPD Overview

Rapid Access Ltd have two UK manufacturing facilities in the midlands. One of these mass produces stock sizes in line with an environmentally friendly and modern approach. The other facility is used to produce bespoke products and sizes to many different specifications. We have provided a high quality service in a wide range of Access Panels, Riser Doors, Loft Hatches and Overboxes in various sizes and specifications.

Designing and Manufacturing access panels for walls and ceilings, we offer the quickest and best manufacturing process on the market when it comes to ordering our products. As a specialist manufacturer with our unrivalled service and lead times.

Holding accreditations in ISO 9001:2015 Quality Management and UKAS Management Systems, our customer service is impeccable. On hand to assist with any queries, our team aim to respond within the hour.

Working alongside customer service is our technical support team who hold a wide range of experience and technical knowledge of all things access panels.

We also offer our customers a large quote support system with each quote over £5,000. This system contains a pack with your quote summary, datasheets, test certification, product/service benefits and features, fitting instructions etc. Additionally, customers are provided with a detailed Architectural product brochure including price and product information and guidance.

Here at Rapid Access Ltd we believe in protecting and investing in the future of business. Proudly announcing our RapidFit® brand that has successfully passed the Trademark process. We also have a patent pending Flipfix Access Panel that ticks all your Access Panels boxes.

What is RapidFit®?

Our unique hinge system has revolutionised the riser door. Say goodbye to old Piano Hinge technology and say hello to future of Access Panels.

FlipFix, the fastest way to install an Access Panel.

With our unique Fitting Device, Mitreless Frame and new Flush Lock system. FlipFix Access Panels are 5 times quicker to fit compared to a traditional panel saving you 80% on fitting costs. No screws or glue required and no need for bracing or supports just cut, fit and flip!
