CPD Overview

Henco offers a solution for all your sanitary, heating and gas problems!

Available CPD Material (1)

Everything you need to know about Multilayer pipe (MLCP) and joints for plumbing & heating applications

More professionals are specifying and installing multilayer pipe systems, due to the products durability and ease of use. Naturally, there are foundation questions on not only operational conditions but how these useful products of the future fit into the construction and environmental built environment. Multilayer pipe systems come in several varieties with separate characteristics that should be accounted for in design and installation phases to maximise the benefits, this presentation gives clarity to Engineers.

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Services

Space heating > Wall, underfloor and ceiling heating

RIBA Core Curriculum areas

Design, construction and technology

Knowledge level: *General Awareness*
