CPD Overview

The In Opera Group specialises in natural stone, marble, granite, porcelain and man-made derivatives, such as agglomerates and terrazzo, manufactured by our group of factories in Italy, Portugal and The Balkans. We offer design, specification and aftercare services. Installation of facade, flooring and tiling is available through our network of contractors.

Available CPD Material (1)

Terrazzo

This CPD presentation provides a comprehensive exploration of architectural terrazzo tiles, delving into the historical origins, material composition, and manufacturing process.

We will explore terrazzo's inherent design flexibility, offering an array of colours, patterns, and textures that can be customised for various applications. In-depth discussions will cover the sustainability benefits of terrazzo, its installation and maintenance procedures, cost considerations, and case studies showcasing its versatility in different spaces.

The course aims to equip attendees with the knowledge and confidence to consider and implement terrazzo tiles in their future design projects.

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness
