CPD Overview

At Lanai Outdoor we only partner with the world's leading manufacturers and installers of commercial louvred canopies, bio climatic pergolas, glass rooms, verandas, canopies, blinds, awnings and pergola awnings ensuring award winning quality is always provided.

All of our products are completely bespoke and made to your exacting requirements. Our team of expert designers and technical surveyors work directly with you to create the outdoor space you require with designs that are both elegant and practical.

When it comes to year-round all weather protection for your outside space, Lanai supplies quality, fit-for-purpose products in a comprehensive range that can be tailored to suit any environment.

With ranges of fabrics made from recycled material, aluminium alloys manufactured using a high content of recycled aluminium and not forgetting the option to add PV solar panels to our range of bioclimatic pergolas to create clean energy, you can be sure you are specifying the most environmentally friendly products available in this market.

Whether it's hospitality, education, industrial or leisure we have the perfect solution for you and your customers.

**Benefits of Outside Space**

This CPD will cover topics relating to the importance of outside spaces within commercial settings and how having a bio-climatic pergola can enhance the space and create an outside place people can enjoy all year round.

We will also cover topics such as product application and usage, plus where pergolas should be considered and how they can be an inclusive product and enjoyed by everyone.

By the end of the presentation you should have a greater understanding of the:

1. Benefits of louvered pergola.
2. Benefits of a usable outside space within a commercial setting.
3. Choosing the right material for your outside structure.
4. Product application and usage
5. Fire safety.
