CPD Overview

Established in 1996 and continuously trading for over 25 years we are a highly experienced architectural aluminium glazing manufacturer and installer operating and installing fire-rated glass doors in the UK. Since 2022 our sole focus is on fire rated glazing systems and products, and we are equally equipped to carry out simple supply only orders or complex and large scale installations. We design, manufacture and install glazed fire resisting systems from Aluprof, Schüco, Reynaers, as well as Pyrostyle E glass doors.

Transparency in The Specification of Glass Fire Doors

The safety of people and property is an absolute priority when designing buildings. This seminar is aimed at helping you design with fire safety in mind. It will give you a comprehensive understanding of fire safety and the chance to ask questions and get expert advice. The discussion will also focus on fire rated systems' performance, application and design considerations, such as doors, fire screens and glazed partitions. Topics covered include Relevant Regulations and Standards, Building a Safer Future, Compliance, Fire Testing (British and European Standards), The Role of Fire Doors, Design Consideration, Fire Ratings for Doors and Glazed Panels, Glass Types, Video of Fire Test and Impact Tests, Installation, Maintenance and Ongoing Inspection.

Material type:	Online Learning, Seminar
RIBA Core Curriculum:	Health, safety and wellbeing Legal, regulatory and statutory compliance
Knowledge level:	General Awareness
