CPD Overview

Hanson Plywood Ltd is a leading UK importer, distributor and supplier of a diverse range of FSC & PEFC accredited environmentally sustainable wood-based panel products. Based in Halifax, West Yorkshire the company supplies a complete range of specialist panel products, with a strong focus on plywood, into a wide cross section of construction-based projects from some of the most comprehensive stocks held in the UK. A technical advisory service is available to ensure correct plywood selection and specification to meet project requirements. A comprehensive processing service including cutting, machining, veneering and laminating of plywood can be provided if required. All plywood orders are processed and supplied on time by the company's own dedicated delivery fleet. As members of Timber Development UK (TDUK) Hanson Plywood Ltd is committed to being at the forefront of both sustainable and environmental practice as well as plywood technical standards. The company is a signatory to TDUK's Responsible Purchasing Policy ensuring that all employees have access to relevant technical data on plywood specification and use.

Plywood: A Definitive Guide to Specification

Habitual specification of Marine plywood is common when high quality plywood is required. This CPD aims to educate specifiers regarding the key features of well made, fit for purpose construction plywood, fully in line with current European Standards, leading to informed product selection. By the end of the session you should have a greater understanding of:

- The key features and origination of plywood within a global context
- The legal and environmental framework that impacts on plywood specification
- The key aspects and variability of the plywood manufacturing process
- The origination of Marine Plywood and the disconnect with current European Plywood Standards
- The European Technical Standards that underpin robust plywood specification
- The key features of the different birch plywood face grades available
- Reaction to Fire European Standards applicable to plywood

This CPD can be delivered to you live and remotely
