---

## Available CPD Material (5)

---

### How to Specify Sustainable Flooring

A presentation aimed at providing candidates with a good understanding of the role solid hardwood floors can play in sustainable building design. Wood is a carbon neutral material and specifying the correct wooden floor can produce a measurable reduction in global warming. We provide candidates with an understanding of why this is so, and to help them realise the potential of solid wood floors over the extended life span of the product.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**  
**Sustainable architecture**

Knowledge level: General Awareness

---

### Selecting and Specifying the Correct Hardwood Floor

This seminar looks at understanding your client's wishes, generic types of hardwood flooring, species, grades, finishes, specification - NBS, how is it fitted? Life cycle costs, underfloor heating, maintenance, problems and expectations.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

### Maintenance and Finishes for Hardwood Flooring

This Junckers seminar will help the architect to decide on the correct materials to be used when maintaining hardwood flooring, to know how to maintain hardwood flooring in the short and long term and touches on the specification of hardwood flooring and their respective finishes.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

### Installation of Hardwood Flooring

This seminar looks at methods of fitting, site assessment, movement allowances, flatness and dryness of sub-floors, underfloor heating, details and problem-solving and maintenance.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

### Hardwood Sports Floorings

This seminar looks at understanding your client's wishes, current and future standards, properties of a sports floor, different types of systems and woods, what a high performance sports floor is, benefits to the client, life cycle costs, underfloor heating and loadings and maintenance.

Material type: Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

---

---

## Classifications

---

### Subject/Product Areas (CI/SfB)

Finishes

Floor finishes: wood systems > Wood block and strip flooring

Floor finishes: wood systems > Special wood floors

Floor finishes: wood systems > Engineered wood finished flooring

### RIBA Core Curriculum areas

Design, construction and technology

Knowledge level: *General Awareness*
