CPD Overview

Available CPD Material (15)

Specifying Tiling in Swimming Pools and Leisure Areas

This seminar will enable the listener to:

- Make informed choices when specifying tiling in swimming pools and leisure areas by considering the impact that tiles, backgrounds, water chemistry and the finished environments will have on the adhesive and grout specification.
- Learn how to avoid common failures through optimum product specification and guidance on best practice.
- Feel confident about selecting and specifying the appropriate tile fixing solutions in most wet leisure situations.

Material type:

Online Learning, Seminar

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness

Specify Natural Stone Wall and Floor Tiling with Confidence

This CPD seminar will enable the listener to:

- Make informed choices when specifying natural stone wall and floor tiling by considering the impact that tiles, backgrounds and finished environments will have on the adhesive and grout specification.
- Learn how to avoid common natural stone installation failures through optimum product specification and guidance on best practice.
- Feel confident about selecting and specifying the appropriate tile fixing solutions for natural stone in most situations.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Specify Underfloor Heating with Confidence

This seminar aims to enable attendees to gain confidence in specifying underfloor heating systems. It explores and advises on the key issues and will help you to understand the following topics:

- Understand the different types of underfloor heating systems and their suitability for different situations
- Understand the potential issues that may arise with underfloor heating systems
- Understand general considerations including movement joints, installation, testing, drying times and commissioning
- Understand the specification of suitable screed materials
- Understand the specification of underfloor heating with resilient flooring
- Understand the specification of underfloor heating with tile and stone installations

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Specify Wall and Floor Tiling With Confidence

This CPD seminar will enable the listener to:

- Make informed choices when specifying wall and floor tiling by considering the impact that tiles, backgrounds and finished environments will have on the adhesive and grout specification.
- Learn how to avoid common installation failures through optimum product specification and guidance on best practice.
- Feel confident about selecting and specifying the appropriate tile fixing solutions in most situations.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

NLU-Specify Screeding, Levelling and Sub-floor Preparation with Confidence-NLU

This seminar aims to help architects and specifiers:

- Make informed choices when specifying screeding, levelling and sub-floor preparation by considering the impact of the type, strength, soundness, flatness and moisture content the sub floor will have.
- Learn how to achieve avoid common preparation failures through optimum product specification and guidance on best practice.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Multiple formats

Specify Wet Room Tiling with Confidence

In this seminar, ARDEX explores and advises on the key issues related to wet room tiling installations:

- General design considerations for a wet room installation
- The different waterproofing systems available
- Waterproof protection coating system in particular
- Consideration of the incorporation of undertile heating
- Tile fixing and grouting in a wet room

This CPD can be delivered to you live and remotely.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Multiple formats

Specifying Screeding, Levelling & Sub-Floor Preparation with Confidence

This CPD seminar aims to enable listeners to make informed choices when specifying screeding, levelling & sub floor preparation by considering the impact of the type, strength, soundness, flatness and moisture content of the sub-floor and how by achieving a perfect specification beneath, aspirations regarding the look of the final floor covering can be met.

It will also demonstrate how to avoid common installation failures through optimum product specification and guidance on best practice.

Having listened to this CPD, the audience should feel confident about selecting and specifying the appropriate preparation products in most situations.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Multiple formats

Subfloor Preparation for the Installation of Resilient, Textile and Wooden Flooring

This seminar is intended to educate the delegates in the correct identification and preparation of substrates ready to receive the application of bonded floor coverings, with an emphasis on preparation techniques, moisture mitigation and the specification of appropriate sub-floor preparation products available on the market to ensure an installation that passes the test of time.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

NLU- Specifying Screeding, Levelling & Sub-Floor Preparation with Confidence 2023 -NLU

This CPD seminar aims to enable listeners to make informed choices when specifying screeding, levelling & sub floor preparation by considering the impact of the type, strength, soundness, flatness and moisture content of the sub-floor and how by achieving a perfect specification beneath, aspirations regarding the look of the final floor covering can be met.

It will also demonstrate how to avoid common installation failures through optimum product specification and guidance on best practice.

Having listened to this CPD, the audience should feel confident about selecting and specifying the appropriate preparation products in most situations.

Material type: Online Learning

NLU- Specifying Tiling in Swimming Pool & Leisure Areas 2022 version-

This CPD seminar aims to enable listeners to make informed choices when specifying wall and floor tiling by considering the impact that tiles, backgrounds and finished environments will have on the adhesive and grout specification. It will also demonstrate how to avoid common installation failures through optimum product specification and guidance on best practice.

Having listened to this CPD, the audience should feel confident about selecting and specifying the appropriate fixing solutions in most situations.

Multiple formats

Specifying Tiling in Swimming Pool & Leisure Areas CPD - 2023

This CPD will allow you to make informed choices when specifying tiling in swimming pools and leisure areas by considering the impact that tiles, backgrounds, water chemistry and the finished environments will have on the adhesive and grout specification.

Learn how to avoid common failures through optimum product specification and guidance on best practice.

Feel confident about selecting and specifying the most appropriate tile fixing solutions for use in swimming pools and leisure centres.

Having listened to this CPD, the audience should feel confident about selecting and specifying the appropriate fixing solutions in most situations.

Material type:

Online Learning, Seminar

Multiple formats

NLU-Sub-Floor Preparation, Screeding, Levelling and Smoothing Including Fast Track Construction-NLU

This seminar aims to provide an update on screeding and levelling of sub-floors with guidance on good practices, techniques and an understanding of screed performance.

This CPD can be delivered to you live and remotely.

Material type:

Online Learning, Seminar

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness

Multiple formats

NLU-The Fast Track Installation of Ceramic Tiling

This seminar aims to highlight the pitfalls present in attempting to install ceramic and natural stone tiling when project time is curtailed. Alternative techniques and materials will be illustrated that allow work to proceed without it being jeopardised.

This CPD can be delivered to you live and remotely.

Material type:

Online Learning, Seminar

RIBA Core Curriculum:

Design, construction and technology

Knowledge level:

General Awareness

Multiple formats

NLU-Fast Track Flooring

For rapid refurbishment/installation of floorcoverings, "Fast Track" materials and techniques are essential for long-term performance on the floor. This seminar covers many of the aspects of screeding and levelling sub-floors with the emphasis on fast track techniques and materials.

This CPD can be delivered to you live and remotely.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Multiple formats

NLU-Installation of Ceramic Tiling

This seminar aims to provide an understanding and awareness of design criteria, installation procedures, adhesive and grout requirements.

This CPD can be delivered to you live and remotely.

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**

Knowledge level: General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Substructure

Floor beds, ground floors, basements > Proofing services

Finishes

Floor finishes: rigid tiles, slabs, mosaic > Tile and slab flooring

Floor finishes: jointless > Special jointless flooring

Floor finishes: jointless > Cement-based flooring

Floor finishes: finishes, accessories > Flooring adhesives, bonds, grouts

General products

Paints, varnishes, protective treatments etc. > Paints and primers

RIBA Core Curriculum areas

Design, construction and technology

Knowledge level: *General Awareness*
