CPD Overview

Simpson Strong-Tie® is driven by a commitment to design and manufacture structural connectors, fasteners and anchors that improve and simplify traditional building methods while developing performance tested and approved solutions for new and emerging ones. Everyone who comes into contact with our products experiences technical support, advice and aftercare that is second to none.

As a global company with presence in most countries we are able to offer technical and sales support for projects and builds across the world.

In the UK we manufacture a vast majority of metal work in Tamworth and are proud to contribute to the UK's manufacturing heritage and future.
